**Crugnola (Classic Paddock): “*Motorsport, a driving force for promoting the territory*”.**

Aosta, June 15, 2026 - The cars that have made the history of international motorsport, postcard locations that the whole world envies the "Bel Paese", and the best protagonists of regularity racing for historic and modern cars.

These are the ingredients for the success of the Cisalpina Classic Race Powered By Allianz Investitori SGR, which returns in 2026 with a richer program (from June 25 to 27, 2026) spanning La Salle, Aosta, and the most beautiful locations in the Vallée.

The event, organized by Roberto Crugnola's Classic Paddock, is valid for the Italian Championship for Modern Cars Grand Events, Gran Turismo, and Super Classica ACI Sport for historic cars built up to the year 2000. It will offer participants the opportunity to benefit from the new partnership with KIA, the prestigious automotive brand that has achieved record sales in Italy and Europe thanks to its high-design, reliable, and environmentally conscious models. The collaboration is made possible through Nuova AutoAlpina of the SICAV 2000 Group, the official dealership and authorized KIA service center in Valle d'Aosta and Canavese. An futuristic corner featuring the display of the Korean manufacturer's flagship models will be set up in Aosta Arco Augusto at the finish line of the race.

*“We are thrilled,” explains Crugnola, “to welcome the automotive brand KIA among the title sponsors of our event. Alongside Allianz Investitori SGR, as excellence in their respective sectors, they will allow participants of the Cisalpina Classic Race to benefit from an event that, beyond the sporting aspect, represents an excellence in terms of organizational quality and hospitality. Motorsport is an incredible driving force for promoting the territory; in fact, many crews will stay and experience the Vallée even beyond the days of the race”.*

Registration, which closes this weekend, already sees the participation of crews and teams that will bring some of the most prestigious models from Porsche, Ferrari, Alfa Romeo, Mercedes, and other brands to the race. They will be able to enjoy an event dedicated to the highest level of hospitality and the charm of driving iconic cars through the hairpin turns of the Vallée.

Among the innovations of the 2026 edition will be the opportunity to perform timed trials at the Rapy Skiroll track in Verrayes (AO), where competitors will have the chance to “lap” on the 2.1 km loop dedicated to skiroll. The track, inaugurated in 2001, is located at an altitude slightly above 1000 meters and is characterized by an asphalt strip more than four meters wide featuring numerous ups and downs for a total elevation gain of about 40 meters.
